#### OUR NEW MEAST.

The new head of our paper appears this morning, and we think it will not be disputed that it is as handsome a field as that of our cotemporaries. The head would have been used for our first daily issue but for the failure of the Salt Lake stage to arrive in due time on Monday. We are under many obligations to Messes, Sawyer & Myers, of the Utah Mining Journal, for their courtesy in sa promptly forwarding the head in compliauce with our request.

#### TRIAL BY JURY.

An insidious onstanght is occasionally made by the press of the country upon the right of trial by jury. The Saciaramento Record, alluding to the trial of Laura D. Fuir, says:

The facts that the first trial was for weeks the principal topic of conversation; that the press published phonograp it reports of the processings; and that the whole subject was examined, analyzed and canvassed from every in-againable point by the entire community, render it almost impossible to obtain jury of ordinary intelligence which shall eligible umb'r the monstrously absurd riles which are prescribed for the qualinaution of juryes.

The assumptions of our Sacramento namestke, are certainly strange, coming as they do from so respectable and wellistormed a source. The R cord says the press published phonographic reports of the proceedings, and that the whole subject was examined, analyzed and canvassed from almost every imaginable point by the entire community, and yet the ruling of the Courts declaring a man disqualified from the jury box after having read a phonographic report of the proceedings, and canvassed the case in every imaginable point, is held up by the Record as "monstrously absurd." We regard the very contrary as the true position. Nothing can be more "monsfronsly absurd," or more wicked and atrocious, than to admit to the jury box Las had the case stated to him so clearly that after analyzing and canvassing the case, and from what he has read or beard, becomes satisfied as to its merils. We maintain that a man who takes a -decided stand upon any issue between

the State and a citizen, or between two citizens, is disqualified as a juror. Those "of an opposite view contend that any man who reads an account of a homicide must form some sort of opinion about it. Granted; opinions may be formed, "and generally are arrived at, from an imperfect knowledge of the facts; but when a man reads or hears about a case, analyzes and canvasses thoroughly what he has read or heard, his opinion gives way to conviction; and who has the ... hardihood to contend that a man who is convinced of a certain fact is qualified to sit upon a jury to determine whether such fact exists? The difficulty is that many journals-those in the large cities especially-are striving to take from the Courts their proper control of criminal business, by continually harping upon every eriminal case, and by keeping the matter constantly, before the public, almost force every man who reads at all to take a stand either for or against the aconsed. Two murder cases are now before the District Court of this county;

the circumstances of the killing in each case were briefly mentioned in these colunius, and the watter has properly been left to the Court for final determination. Had this paper patterned after the San Francisco papers, the obtainment of a jury in either of these cases would have

been made impossible. The rule applied to jurors is right, and if flash newspapers would cease trying to create convictious for or against the accused, and people ould school themselves to look upon an allegation and the proof of a fact as two

different things, substantial justice would not so often be cheated. RANSAS.-The Liberal Bepublican and Democratic nominations in Kansas are T. H. Walker for Governor; John Wal-

Judge Merrimon of North Carolina has written a letter to a friend in reference to contesting the election in that State, in which he says he would not think of doing so upon slight or captions grounds, nor to gratify party caprice; but if there is substantial ground for doing so, which he thinks there is, and that it can be made to appear according to law, and if the people demand it, then it will be his duty, and also his pleasure, to contest it.

The American Public Health Association, composed of medical and scientific gentlemen from various parts of the country, has been formed, with Stephen Smith, of New York, President, and Elisha Harris, of New York, Secretary. London, Sept. 16 .- As Prince Arthur is soon to visit Birmingham, the authorities made the usual appropriation for the expenses of his reception. The Republican Club of that city, at a recent meeting, protested against an increase of local expenses for such purposes, declaring that illuminations and banquets at the public expense on these occasions were no longer in accordance with the

He believes Thiers is an earnest patriot; carnest in all that is for the country's good; and that France will attain a high degree of prosperity under his administration. The General has a high opinion of the efficiency and training of the Prussian troops.
